

The all-inclusive PDF & OCR solution!

Readiris™ Corporate 17 for Mac® is the business-centric version of IRIS' flagship OCR software. It was made to help SMBs and larger companies process information contained in paper and digital documents efficiently in order to share them within their organization and network.

Readiris™ corporate 17 for Mac also brings a complete approach to creating, modifying and signing PDFs in an easy way.

Take the maximum benefit of your scanners or files by adding the power of Readiris™ Corporate 17 for Mac software.

Key features

- Optimized interface to ease your document processing.
- Document processing and opening 20% faster than previous versions. Gain productivity by optimizing your precious time focusing on your core business.
- PDF Annotations: collaborate on your PDFs thanks to a full range of annotations.
- Convert batches of documents, images or PDF files into editable documents including searchable PDFs
- Automate your recognition process thanks to watched folders
- Compress searchable PDF files up to 50 times for optimized archiving and sharing
- Create, edit and merge multipage PDF files
- Sign and secure your PDF files with passwords
- Back-up your documents in the Cloud
- Sort your files using document separation tools and barcodes
- Access your smart documents from any computer, smartphone or tablet

Supported OCR languages	138 (complete list at www.irislink.com)

Key benefits

The Ultimate PDF toolbox - Review and collaborate on your PDFs

- **Annotations** - Comment your PDFs with Strike out, underline, text box, watermark, attached file, voice record and text to speech annotations.
- **Create searchable PDFs** – with a text layer ready to be searched
- **Edit PDF files** - Correct text directly into Readiris™ before the conversion process.
- **Organize your PDFs** - Add, delete, position, merge, & straighten PDF pages
- **Compress your documents for optimized archiving** - Use IRIS' patented hyper-compression technology (iHQC™) to create PDF files up to 50 times smaller than their original size.
- **Sign your PDF files digitally** - The PDF documents you generate with Readiris™ can be signed digitally. A digital signature identifies the person who created the PDF document; it authenticates the identity of the author, certifies a document and helps prevent unwanted changes to the PDF document.
- **Extended support of PDF formats** - Readiris™ Corporate 17 features an extended set of PDF creation tools including the support of PDF/A, Text-PDF, Text-image and PDF iHQC™ Level 2 & 3 for even lighter files.

Access to a next level of document processing

- **Process batches of documents** and reduce document processing times by splitting tasks over a multi-core workflow
- **Sort your files using document separation tools and barcodes** - Add a separator like a blank page or a barcode between each document to tell the OCR software to create different output files from a single batch of documents.
- **Use watched folders to automate your workflow** - Readiris™ Corporate 17 for Mac can monitor specific folders on a local drive, network or FTP server and automatically process any document placed in this specific location.
- **Index your documents** - If you are using a document management system that handles index fields, you can either use Readiris™ Corporate 17 for Mac to fill them out using "Drag and drop OCR"
- **Scan with MFPs and professional scanners** - For small and medium businesses using multi-sheet feed scanners, MFPs or professional scanners, Readiris™ Corporate 17 for Mac is a first-class solution to handle the processing of incoming documents.

Minimum computer requirements

- Mac® computer with Intel® processor
- Mac OS® X version 10.13 or above (High Sierra)
- Minimum 400MB of available hard disk space.
- Internet connection for software download and activation
